

POST CONFERENCE TALK BY DATUK DR SELVAM RENGASAMY, M.B.B.S. (Madras), F.R.C.O.G. (London), President – SAHAMM, FACNEM, Board Certified Anti-Aging Physician, HIS & A4RM

Date: 13th March 2016 Venue: Vistana Kuala Lumpur, Titiwangsa

Time: 08:30am

Don't miss out on 2 most interesting topics that will be covered by Datuk Dr Selvam. This talk is open to everyone who is interested.

TOPIC: i) ADRENAL FATIGUE – The Many Faces

Adrenal fatigue is a collection of signs and symptoms, known as a syndrome, that results when the adrenal glands function below the necessary level.

TOPIC: ii) CANCER: Earliest Detection & The Ultimate Truth

Countless lives could be saved from Cancer if we simply found the disease earlier. The same is true for other forms of the disease too. Not recognising the underlying causes of cancer is the reason why we don't see a better success rate in treating cancer. The earliest known descriptions of cancer dates back to the early 19th century and this needs to be reviewed and understood if we want to win the battle over cancer. Early detection is the absolute best form of prevention when it comes to Cancer.

FEE:

For Nutritional Certification Course participants its FOC and for Nonparticipants a **fee of RM150** will be charged. Payment can be done on-site either by cash/cheque (made out to SAHAMM) or credit card during registration.
